Making Quality Sharpening Products, Knives, and Multi-Tools since 1984

Fortune Products, Inc., dba AccuSharp Int'l., is a leading manufacturer of sharpeners, knives, and multi-tools, and provider of quality products. We focus on making the most effective knife and tool sharpeners in the world. Our every effort is focused on creating products that will provide the sharpest edge possible for your knives, tools, and equipment. Whether your sharpening needs range from the kitchen, workshop, yard, hunting, fishing, or other outdoor sports, our sharpening products can help you maintain the very best edge. We are proud of the many awards we've won for product effectiveness, even when compared to brands costing hundreds more. Over the years, the AccuSharp® brand has won numerous awards for value and performance.

NEW PRODUCTS

Gourmet 15° Series KNIFE SHARPENERS

At AccuSharp®, we've noticed a paradigm shift in kitchen knives. Traditionally set at an 18°-21° angle, kitchen knives are trending towards a 15° blade for a sharper edge, perfect for slicing and dicing in meal preparations. As a result of this paradigm shift, we've created a new line of knife sharpeners called the Gourmet 15° Series. Our new Gourmet 15° Series includes sharpeners featuring reversible and replaceable diamond-honed tungsten carbide blades, diamond coated ceramic rods and fine ceramic rods, along with a sharpening steel with 15° and 21° angle guides. Our traditional sharpeners, which are set at a 21° angle, are still a great choice for general use.

We make it easy for culinary artists and home chefs alike to keep their edge!

AccuSharp® Knife and Tool Sharpener

Finally a knife sharpener anyone can use. Easily sharpen knives (even serrated knives), cleavers, axes, machetes, and many other cutting tools within seconds. The large, ergonomic handle fits either hand comfortably and features a full-length finger guard to safely protect your fingers while using. The reversible sharpening blades are made of diamond-honed tungsten carbide and provide years of reliable use. The original AccuSharp® comes in white, brushed aluminum, blaze-orange, olive drab green, and camouflage. Replacement blades are sold separately.

Article on Cool Tools by David Carr

January 5, 2014

“
Cool Tools, both the website and the book (by Kevin Kelly), is not about getting more things, or expensive gadgets, but about finding the right stuff. For me, it was the \$9 AccuSharp Knife Sharpener, remarkably useful because it makes something I already have – an indifferent set of kitchen knives – much more valuable.

”
David Carr -- The New York Times
